Your registration is now complete and next time you login, you will see the modules for the EESAS course listed at bottom of the page. The modules are sequential, and you must watch the video (approx. 30-40 minutes each) and then do the short quiz before you can move to the next module. Although quizzes are set for an 80% pass, you can repeat them as many times as you wish until correct, then can proceed.

There is a manual you can download or print that follows along with the material and links to other resources that may be of interest. When you complete all 8 modules, a certificate of completion will automatically be generated.
